

A dramatic image of a space shuttle launching from a launchpad, with a large plume of white smoke and fire trailing behind it against a dark, cloudy sky.

# Lift off with SAP on Azure

## Now you can also benefit from the advantages of a suitable cloud solution for your company in the SAP environment!

Transfer your SAP workload onto Microsoft Azure together with us in order to make your IT landscape even more flexible. With over 30 years experience of working with SAP and as a Microsoft Gold Partner and longstanding SAP Gold Partner, Scheer GmbH is happy to support you in finding and also operating the optimal solution for your business model. Whether private, public or hybrid – together with you, we can develop the optimal cloud concept for your company.

### It's high time for the cloud!

The IT infrastructure of your company is becoming ever more complex and demanding. The building and maintenance of modern hardware and software requires significant know-how and substantial investment. At the same time, the security of sensitive corporate data is a top priority. Permanent availability as well as software that is always up to date are important components for the daily business in your company.

### Microsoft Azure – your solution

Microsoft provides the optimal platform for the latest SAP solutions with the Azure Cloud. With maximum performance and the highest security standards Microsoft Azure offers high levels of availability, flexibility and scalability for your systems. Global access to the systems increase the power of innovation and productivity of your business.

### Scheer – high performance fuel for your journey into the cloud

Of course, the path to the cloud is not rocket science. As a certified Gold Partner for SAP and Microsoft with many years of experience working with SAP, we offer you first class service and accompany you in every aspect of your journey into the Microsoft Azure Cloud. In addition, you can enjoy the benefits of our reliable 24x7 support services. We are happy to take care of the professional maintenance, monitoring and further development of your SAP systems so you can concentrate fully on your core business.

## Why SAP on Azure?

### Purchase

Don't wait unnecessarily long for hardware service providers. We provide you with IT resources in minutes instead of weeks – Incorporate DevOps!

### Pay-As-You-Go

Only use the IT resources that are actually needed. We switch off your SAP system at off-peak times and can thus save up to 40% in costs. Seasonal load peaks can be flexibly supported.

### Scalability

Take advantage of the limitless scalability of your Azure systems and adapt your IT landscape to the constant changes in your business processes.

### Security

Benefit from extensive investments in IT security measures and over 50 certificates from various industries. We offer maximum availability and geo-redundancy for your SAP landscape with up to 99.9% availability.

*As a company, you don't have to be as fast as Usain Bolt over a hundred meters. What is crucial, however, is that you do start running. You also need a coach and sparring partner, which is a step Scheer has taken with us. They're still by our side and continue to challenge us today. We're using this partnership to further improve our strategies and processes.*

**frischli Milchwerke GmbH**

### Our offer to you

- The most up-to-date SAP S/4HANA test system (Demo21) on Azure
- A free of charge half day S/4HANA Check-Up Workshop (analysis of the system landscape, development of a possible implementation roadmap as well as operating possibilities)
- An individual SAP S/4HANA Assessment, based on the results of the check-up workshop combined with Scheer best practice methodologies (process analysis, code checks, PoC, etc.)

## ABOUT SCHEER

As a consulting and software firm, the Scheer Group supports companies in the development of new business models, the optimization and implementation of efficient business processes, and the dependable operation of their IT systems. A particular focus in the development of products and services involves guiding companies through their digital transformation.
